## WORK EXPERIENCE

### Front End Developer

Dec 2023– Present

Global Software Consulting | Lahore, Pakistan

- Created easy-to-use web interfaces that adapt to different screens using HTML5 ,CSS3, JAVASCRIPT, BOOTSTARP and REACT.JS. My aim was to ensure users have a great experience no matter what device they are using.
- Integrated REST APIs and GRAPHQL into our applications. This involved connecting our user interface with the backend system to fetch and display data. By leveraging both APIs and GRAPHQL, I ensured efficient communication between the frontend and backend, enabling dynamic and responsive user experiences.
- Successfully completed significant projects including Global Software Consulting App in Pedlar Store, Pixel Edge, and OBENAN dashboard along with OBENAN landing.
- I made optimizing code quality a top priority in all of these projects, resulting in a 30% reduction in bugs and a 70% improvement in code maintainability.

### Front End Development Course

April 2024 – June 2024

By PSDF | Lahore, Pakistan

I am Successfully completed the web application development course in front end /HTML5/CSS3/JAVASCRIPT/BOOTSTRAP and Front-End library React.js in three months as students

## PROJECTS

### Website CV and Portfolio (Html5, css3, JavaScript, bootstrap,...)

<https://lnkd.in/d6Xf74bF>

- Played a pivotal role in developing the frontend interface for our AI-powered digital marketing platform. I designed and implemented responsive UI components to ensure a seamless user experience across devices.
- Error handling and security measures were also implemented to ensure robustness and protect sensitive data during transmission.
